## Foreword

## Introduction

### *Chapter One:*

#### *The Issues*

#### **Wildland/Urban Interface Fire: Background – 1-2**

- What Is the Wildland/Urban Interface? – 1-2
- How Does Fire Threaten the Wildland/Urban Interface? – 1-2
- Fire Management and Wildland/Urban Interface Fires – 1-5

#### **What Does Wildland/Urban Interface Mean? 1-3**

#### **Interface Case Studies – Salmon Arm – 1-4**

#### **Interface Case Studies – Prairie Fire – 1-6**

#### **Interface Case Studies – Saskatchewan – 1-8**

#### **Interface Fire: Community Impacts – 1-10**

- What Can and Will Happen – 1-10

#### **Interface Case Studies – Spokane – 1-11**

#### **Interface Tragedies – 1-12**

#### **Wildland/Urban Interface Fire Challenges – 1-13**

- Know Your Opponent – 1-13
- Wildland/Urban Interface Fire Suppression Challenges – 1-15
- Wildland/Urban Interface Fire – Solutions – 1-15

#### **FireSmart Landscapes – 1-16**

### *Chapter Two:*

#### *Wildfire Hazard Assessment System*

#### **The Wildfire Hazard Assessment System – 2-2**

- When to Conduct an Interface Wildfire Hazard Assessment – 2-2

#### **The Wildfire Hazard Assessment Forms – 2-3**

- Guidelines for Completing the Wildfire Hazard Assessment Form – 2-3

#### **Using the Structure and Site Hazard**

#### **Assessment Form – 2-4**

- Factor 1 – Roofing Material – 2-5
- Factor 2 – Roof Cleanliness – 2-6
- Factor 3 – Building Exterior – 2-7
- Factor 4 – Eaves, Vents, and Openings – 2-8
- Factor 5 – Balcony, Deck or Porch – 2-9
- Factor 6 – Window and Door Glazing – 2-10
- Factor 7 – Location of Nearby Combustibles – 2-11
- Factor 8 – Setback from Edge of Slope – 2-12
- Factor 9 – Forest Vegetation (Overstory) – 2-14
- Factor 10 – Surface Vegetation – 2-16
- Factor 11 – Ladder Fuels – 2-17

#### **Using the Area Hazard Assessment Form – 2-18**

- Factor 12 – Forest Vegetation (Overstory) – 2-18
- Factor 13 – Surface Vegetation – 2-18
- Factor 14 – Ladder Fuels – 2-18
- Factor 15 – Slope – 2-19
- Factor 16 – Position on Slope – 2-20

#### **Using the Fire Ignition and Prevention**

#### **Checklist – 2-21**

- Ignition Potential (Area) – 2-21
- Ignition Potential (Structure and Site) – 2-22

#### **Using the Fire Suppression Checklist – 2-25**

- Fire Service – 2-25
- Access to Structure – 2-26
- Water Supply – 2-27
- Suppression Equipment on Site – 2-28

#### **Structure and Site Hazard Assessment Form – 2-29**

#### **Area Hazard Assessment Form – 2-30**

#### **Fire Ignition and Prevention Checklist – 2-31**

#### **Fire Suppression Checklist – 2-31**

### *Chapter Three:*

#### *Solutions and Mitigations*

#### **Introduction – 3-2**

#### **Vegetation Management – 3-3**

- Establishing Priority Zones – 3-4
- Priority Zone 1: Area Within 10 Metres of a Building – 3-5
- Priority Zone 2: Area 10-30 Metres from a Building – 3-9
- Priority Zone 3: Area 30 – 100 Metres from a Building – 3-13
- Fuel Modification for Communities: Community Fireguards – 3-13
- Disposal of Forest Debris – 3-16

#### **Structural Options – 3-19**

- Roofing – 3-19
- Chimneys or Stovepipes – 3-23
- Exterior Siding – 3-23
- Window and Door Glazing – 3-24
- Eaves, Vents, and Openings – 3-25
- Balconies, Decks, and Porches – 3-25
- Trailers and Manufactured Homes – 3-26
- On-site Firefighting Equipment – 3-27

#### **Infrastructure – 3-28**

- Access Routes – 3-28
- Open Spaces – Greenbelt Areas – 3-32
- Water Supply – 3-32
- Utilities – Electric and Gas – 3-37
- Summary – 3-39

**Chapter Four:**

**Emergency Measures**

**Interface Fire Characteristics and Response Strategy – 4-2**

- Interface Fire – Disaster or Fire Event? – 4-2
- Interface Fire Characteristics and Suppression Response Challenges – 4-3

**Incident Command System (ICS) – 4-6**

- Incident Command System – Brief Outline – 4-6
- Incident Command System – Components – 4-7
- Emergency Site Management – Brief Outline – 4-8
- Emergency Site Management – System Structure – 4-9

**Municipal Emergency Structures – 4-12**

- Municipal Emergency Structures across Canada – 4-12
- Municipal Emergency Structure – the Alberta Example – 4-12
- Municipal Emergency Structure – the British Columbia Example – 4-13
- Municipal Emergency Plan – Interface Fire Components – 4-14
- Emergency Response Procedure for Interface Fire – 4-16

**Actions for Individuals – 4-20**

- Protecting your Farm Resources – livestock and feed crops – 4-20
- What to Do When Fire Danger is Extreme – 4-21
- What to Do if Fire Approaches – 4-21
- When an Evacuation Alert is given – 4-21
- When it is Time to Evacuate – 4-21

**Interface Fire Disaster Response Strategies – Putting it All Together – 4-22**

**Chapter Five:**

**Wildland / Urban Interface Training**

**Introduction – 5-2**

**The Interface Firefighter – 5-2**

- Training Needs – 5-2
- Cross-training Opportunities – 5-2
- Simulation Exercises – 5-3

**Detailed Course Outlines – 5-5**

**Chapter Six:**

**Communications and Public Education**

**Introduction – 6-2**

**Principles of Effective Communications – 6-2**

**Developing a Communications Plan – 6-2**

- Elements of a Communication Plan – 6-3

**The Target Audience – 6-3**

- Who Do You Need to Talk to? – 6-3

**Effective Messages – 6-4**

**Effective Media Relations – 6-6**

**Sample Interface Fire**

**Communications Plan – 6-8**

**Chapter Seven:**

**Land Use Planning**

**Part One: The Challenges – 7-2**

- Country Living Carries Risks – 7-2
- Similar Issues in Planning – 7-5
- Planning with Realistic Limits – 7-5

**Part Two: How to Use What We Know – 7-7**

- Using Land Use Planning – 7-7
- Using Policy Planning – 7-8
- Using Subdivision Development and Design Standards – 7-11
- Considerations for Environmental Reserve Land – 7-15
- Landscaping – 7-15
- Building Construction – 7-15
- Getting All Levels of Government Together – 7-15

**Chapter Eight:**

**Communities Taking Action – Templates for Success**

**Seven Stories – 8-2**

- Fort McMurray – 8-2
- Town of Hinton/Yellowhead Country – 8-3
- The Bow Corridor – 8-4
- Kamloops, British Columbia – 8-5
- Spokane, Washington – 8-7
- Boulder County, Colorado – 8-9
- Victoria, Australia – 8-11

**Resources and Appendices**

**Resources**

- References
- Websites

**Appendix 1: Conversion Table**

**Appendix 2: Fuel Reduction Standards**

**for Crown Fire Hazard**

- Fuel Reduction Standards for Crown Fire Hazard

**Appendix 3: Sample Communications Documents**

**Photographers**
